

GUARD Hygienic Shield ,Face'

The ideal complement to
GUARD Hygienic Shield ,Window'!

For barkeepers, service staff and all who
must keep moving at work.

The GUARD Hygienic Shield ,Face' offers a
barrier against driplets, which escape in
speaking- and breathing direction.

The big advantage: communication by
speaking and facial expression is possible
undisturbed.

High comfort through an adjustable rubber
band. The clear plastic visor offers a good
panoramic view and allows free breathing
and speaking.

Also suitable for persons wearing glasses!

The visor offers simple hygienical makeshift protection during inevitable
encounters in the restaurant or at the bar counter. It is no medical device
or virus protection, but an additional tool to meet the general distance
requirements.

Still important: The currently effective hygiene rules like washing hands,
keeping distance, cough- and sneeze etiquette. Please observe the laws in
your respective (federal) state.

The colours of the support can vary
according to availability.

The advantages at a glance:

- ☒ High comfort - also for persons wearing glasses!
- ☒ free breathing and speaking
- ☒ stable through bracing at the lower edge
- ☒ Made in Germany
